AUTOMOBILE AND MOTORCYCLE COLLIDE

W. B. Parks was coming east from his home Wednesday morning, in his auto, and just as he turned the corner intending to go south on that street, he met his son, Gordon Parks on his motorcycle. Both were going at about 15 miles per hour. His son evidently thought Mr. Parks would as usual turn north at that point. Mr. Parks was at that moment watching a man coming at a pretty lively clip in a buggy, towards him, and thinking that his son would turn close to the end of the culvert at the junction of the two streets, to pass the auto. Gordon ran his cycle into the side of the auto. Mr. Parks caught him with both hands, well as he could, to break the shock. Gordon was badly shaken up but sustained no serious hurts. Mr. Parks escaped unhurt. The cycle was bent and broken, wheels frame and machinery coming in for a big shock.

Gordon hit the door of the door of the auto and broke it in. With but very slight variations from what actually happened, it would have been a very serious accident, especially for Gordon. As it resulted, both are happy that they got off so well. It occurred in front of the C. P. Anderson residence and was all over before any one could arrive.

ARIZONA NEWS

Judge E. M. Sanford, for something like quarter of a century a prominent attorney and jurist of Arizona, is dead at Orange, N. J. It is thought that he destroyed himself, having been for some time very despondent over financial losses.

It is reported that a certain Arizonian recently went to New York City and found people at the races wearing straw hats and overcoats all at once. Nothing is said of the other apparel, if any. This visitor also got a meal, an all-around good meal, for 13 cents.

Hon. Reese M. Ling, in an interview in the Washington Post, gave as his idea that now is a good time for Uncle Sam to get another slice of country from Mexico, taking in parts of Chihuahua and Sonora and the whole of Lower California, in payment for claims against Mexico.

Three cases of diphtheria, or what have plenty of the symptoms of the malady at least, are in the family of Juan Ulibarri in the south part of town. Dr. Bouldin is in strict attendance and will prevent any spread of the disease. The public will do well to help all they can.

B. B. Crosby of Eagar was in town several days this week, attending to personal business. A Gallup paper, lately noting his presence in that thriving city on the Rio Puerco, denominated him as "attorney Crosby," but we haven't heard whether or not Ben is engaged in the practice of law.

The City Meat Market opened up this week with one of the choicest of the beef cattle that could be found in I. Isaacson, Jr.'s, herd down Milky Way, where he formerly ranches, with pleasure. He has a big number of others which will find their way from the Milky to this same market.

Jesse Marble was over from Concho to attend to some land matters, as was also Chas. C. White, from the same pleasant little city, for the same purpose. Both made final proof on lovely homesteads, before court clerk J. H. Udall.

Mrs. Joseph Udall was down this week from Eagar in her car, interviewing people here with the intention of interesting them in sending an exhibit to the State Fair this year.

Seferino Sais was over from Concho this week to secure a marriage license for his son Juan who will shortly marry one of Concho's fair young ladies, next Saturday.

RETURNS FROM GERMANY.

The Herald of Albuquerque gives an interesting account of Senator Isaac Barth's trip to Germany. He left August 7th and returned last week. His entire journey was sufficiently filled with things exciting, from beginning to end, to interest any one from the S. O. S. calls received by the ship St. Paul, in which he sailed, to his landing on American Soil.

An American boat loaded with mules from New Orleans and consigned to the British Government was attacked by a German submarine which in turn was sunk by a British Man O'War. The boat with the mules though disabled got into port.

In London he saw the Zeppelins floating over the city and dropping bombs, heavy iron darts and illuminating torches. In crossing the Channel for Germany he saw a German submarine hooked in a wire net by an English traveler. He visited some of the prisons camps both of the English and the Germans, and found that the prisoners everywhere were well treated. Much more enthusiasm over war matters is manifested by the Germans.

The senator's many friends here are pleased to know of his safe return from the war zone.

The D. B. Baca Stores at Springerville and Eagar will have a Big Cheap Sale next Saturday, when all kinds of choice goods will be sold at very low prices.

Pedro Duran commenced to build a new house in south part of town, where he lately bought a lot, and will make this his place of residence in the future.
